- NF-041000
- NF-211000
- NF-561000
- Any colour possible

Specifications

- ↔ 100 mm
- 📦 1.325 kilos/meter
- ↗ 6150 mm
- 💡 Illuminated
- ✓ Two-year warranty

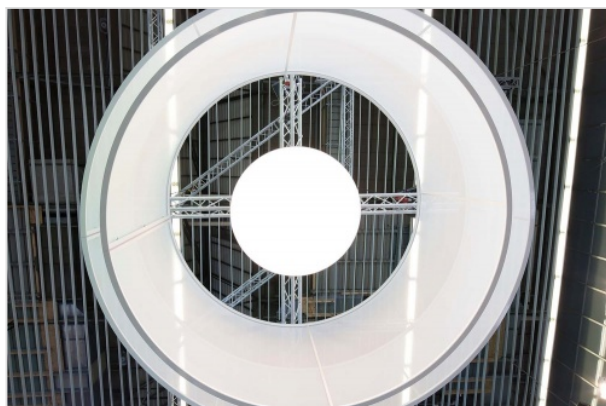

About the Lightbox 100 (curved)

A single-sided curved profile designed to illuminate textile prints. The textile print is illuminated from the back with a pre-mounted LED on a Dibond plate. Wide-angle lenses create an even light distribution. The frame can be used for wall mounting and suspended from the ceiling and comes standard in three colours.

The advantages

- ✓ Single-sided curved LED frame
- ✓ Available as a circle
- ✓ LED technology: LED on Dibond
- ✓ Two-year warranty

Lightbox 100 Curved LED frame

Mounting

Wall-mounted

Wall mounted frames with just one textile.

Attached to the ceiling

Frames suspended from the ceiling. Both horizontal as well as vertical suspension is possible.

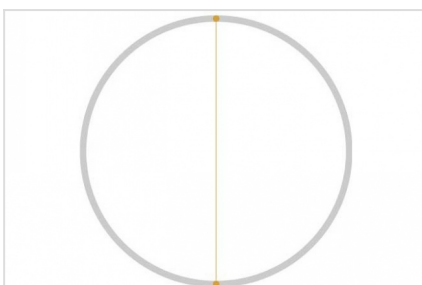

Finish

Closed

An even finish. If desired, holes can be drilled in the profile so that accessories can be attached.

Shapes

Circle

An eye-catching and distinctive alternative to a standard textile frame.

Illumination

LED on Dibond

- Even light distribution due to backlighting
- Suitable for small and medium sized frames
- Narrow frames possible
- Quick installation due to pre-assembled frame

Brightness

Bright LED

- Most common brightness
- Even distribution of light
- Relatively low power consumption

Super Bright LED

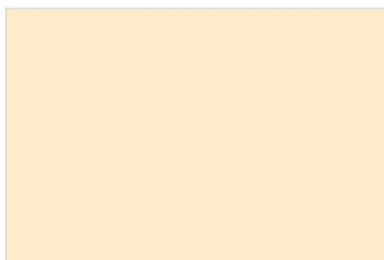

- Distinctive and impressive luminosity
- Dimmable, DALI dimmable, and non-dimmable
- Suitable for ceiling lighting
- Suitable for single-coloured and white textiles

Lightcolour

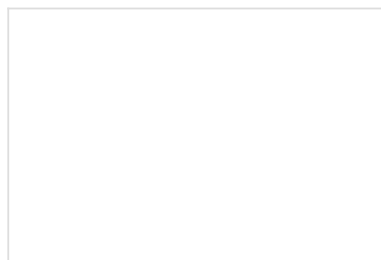

3000K

Warm white.

4000K

Yellow white.

6500K

Bright white (daylight).

Dimmable

Dimmable

The brightness of the LED frame can be adjusted with a dimmer. This way, the light intensity can be determined depending on the environment.

DALI dimmable

The LED frame is prepared for a connection to a DALI system.

Dimmer

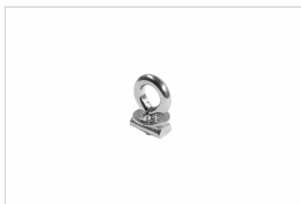

Dimmer

The LEDs have white colours. The three most commonly used colours are: warm white, yellow white and bright white.
