- NF-21340
- Any colour possible

## Specifications

- ↔ 30 mm
- 📦 0.286 kilos/meter
- ↗ 6150 mm
- 💡 Unlit

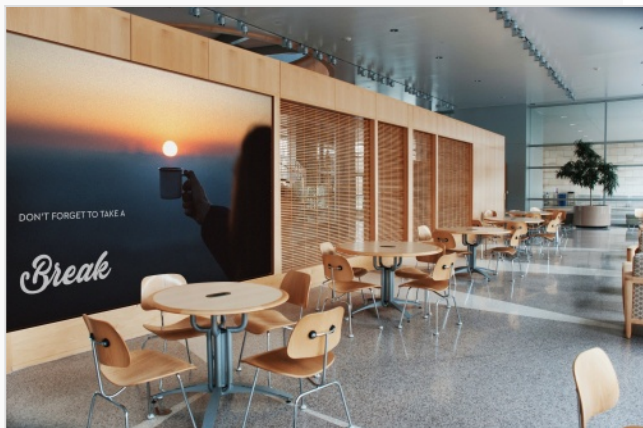

## About the Cabinet 30

The Cabinet 30 frame is a specially designed textile frame that is suitable for various built-in solutions. By drilling the frame to the inside of the niche or frame every 30cm, the entire opening can be covered by the textile print with its silicone strip.

## The advantages

- ✓ Textile frame for installation
- ✓ Perfect for in a niche or frame
- ✓ Without the use of stabilizers

# Mounting

## Wall-mounted

Wall mounted frames with just one textile.

---

## Punch holes

### Without punch holes

Attach the frame to the wall with screw fastening or use wallmounts with a levelling screw.

### Pre-drilled

To simplify the installation, the frame can be supplied with pre-drilled holes, called punch holes. This makes the pre-drilled frame quicker to install.
