- Ⓢ CE certified
- ✓ Two-year warranty

About the Lightbox 60

The Lightbox 60 is the most popular single-sided LED backlight illumination frame, offering many different LED options such as light colour and brightness. The profile is only 60 mm deep and, therefore, creates an elegant and modern appearance. This profile has an extra groove on the back so that you can place an additional print, covering the dibond plate.

The advantages

- ✓ High quality light diffusion
- ✓ LED technology: LED on Dibond
- ✓ Dimmable possible
- ✓ Two-year warranty

Lightbox 60 Single-sided LED frame

Mounting

Wall-mounted

Wall mounted frames with just one textile.

Illumination

LED on Dibond

- Even light distribution due to backlighting
- Suitable for small and medium sized frames
- Narrow frames possible
- Quick installation due to pre-assembled frame

Brightness

Bright LED

- Most common brightness
- Even distribution of light
- Relatively low power consumption

Super Bright LED

- Distinctive and impressive luminosity
- Dimmable, DALI dimmable, and non-dimmable
- Suitable for ceiling lighting
- Suitable for single-coloured and white textiles

Lightcolour

3000K

Warm white.

4000K

Yellow white.

6500K

Bright white (daylight).

Dimmable

Dimmable

The brightness of the LED frame can be adjusted with a dimmer. This way, the light intensity can be determined depending on the environment.

Dimmer

Dimmer

The LEDs have white colours. The three most commonly used colours are: warm white, yellow white and bright white.
